

PRE-WORKSHOP CHECKLIST

MY CLIMATE STORY

- Decide if you will be recording the workshop. If so, check out our "If You Choose to Record a Workshop" sheet for tips.
- Craft your statement on group norms. Feel free to borrow or adapt the example text at <https://my-climate-story.org/wp-content/uploads/2021/12/MCS-Group-Norms.pdf>.
- Create topical icebreakers. For some samples, see ours at <https://my-climate-story.org/wp-content/uploads/2022/01/MCS-Sample-Icebreakers.pdf>.
- Review the materials for the workshop you'll facilitate (presented in chapters 1, 2, and 3).
- Familiarize yourself with the further resources in this workbook, and online, that your group might use after the workshop.
- Remind yourself to hold space for the difficult emotions that may arise in these workshops.
- Reflect on every workshop's three main goals: guide the recognition of climate impacts, explore the emotions, and inspire climate action.
- Edit the workshop script to make it your own, keying it to the sample slides for your workshop.
- Modify sample slide deck for your workshop as needed and appropriate.
